

May 18, 2022

Under the Transparency in Coverage Rule, issued in 2020 by the U.S. Department of Health & Human Services, Department of Labor, and Department of the Treasury and enforced beginning 7/1/2022, health insurance issuers must publish two separate machine readable files (MRFs) as follows:

- In Network: Negotiated rates for all covered items and services between the plan or issuer and in-network providers
- Out of Network: Allowed amount paid to, and billed charges from, out-of-network providers for all covered services within a 90-day period

Ohio Semitronics, Inc. is contracted with Cigna as of this publication. Cigna has provided the following link to access the required MRFs.

https://www.cigna.com/legal/compliance/machine-readable-files

Please note that prior to 7/1/2022, this link will take you to the home page of Cigna.com, but will access the MRFs page after that date.

This link leads to the machine-readable files that are made available in response to the federal Transparency in Coverage Rule. The machine readable files are formatted to allow researchers, regulators, and application developers to more easily access and analyze data.
