

DVT7 EXTENSION MODULE

Model DVT7-EXT

1000Vdc extension for DVT7

Compact, DIN rail-mount enclosure

Designed to Interface with DVT7 for a Proportional Output

- Isolated output when paired with DVT7
- Voltage range 0-1000Vdc
- Over-range without damage 1.25 X F.S. rating
- Frequency = DC
- $\geq 2M\Omega$ input impedance
- 0-1000Vdc input = 0-F.S. DVT7 output

Mountable on Standard "Top Hat" Rail

- 12-30AWG termination wire size
- IP20
- 0.20lbs

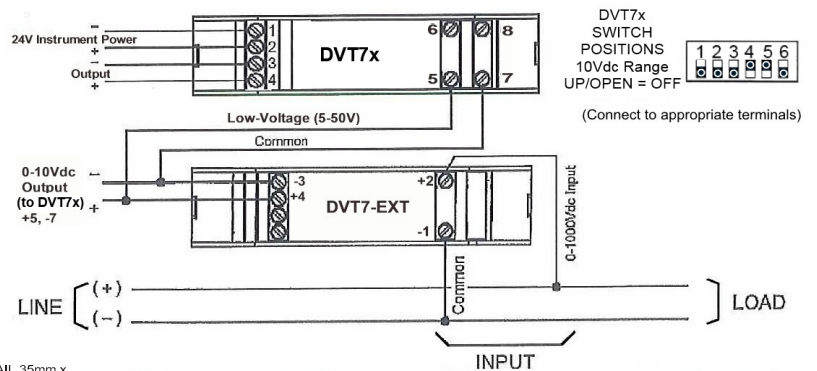

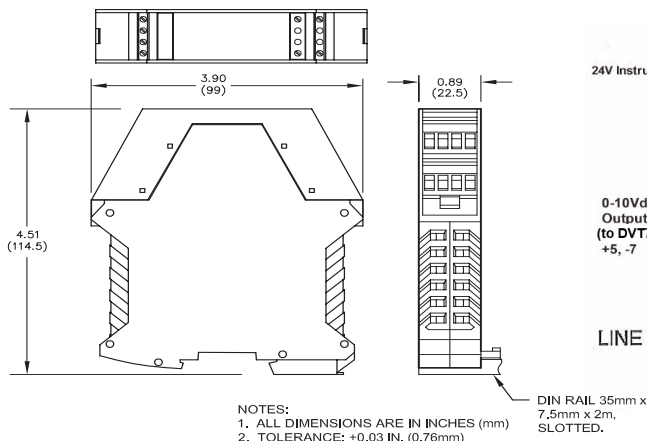

Accuracy

- $\pm 0.10\%$ F.S. in addition to DVT7
- Includes effects of setpoint, linearity and offset
- Dielectric test
Input to DVT7 output 2500Vdc
